BLAST MACHINE HIRE - REDLINE

We're keen to understand your exact requirements for blast pot hire so we can best advise you on the most appropriate package for your needs. Please get in touch with our team before hiring if you have any questions.

STANDARD PACKAGE

10m blast hose including deadman lines
Fully sanitised blast helmet
Two-man breathing filter
10m breathing line
Tungsten nozzle (5/16)

PRICES

18ltr blast pot package	£175 per week + delivery	20m hose + £59
50ltr blast pot package	£205 per week + delivery	20m hose + £75
100ltr blast pot package	£262 per week + delivery	20m hose + £75
200ltr blast pot package	£305 per week + delivery	20m hose + £75

Please note:

- Prices do not include compressor lines.
- A £500 holding deposit is required for new customers.

COMPRESSOR REQUIREMENTS

We recommend a compressor producing between 175CFM and 250CFM. This should cover use of most nozzle types. We would also recommend using a dryer with this equipment where possible.

END OF HIRE

Pots should be fully emptied of abrasive and strapped down to a pallet before returning. A surcharge of £75 may be levied if the pot is not completely empty of abrasive. Full terms and conditions can be found at www.airblast.co.uk/hire-terms and are provided at the point of hire.
