

Quality & Environmental Policy Statement

Our environmental management system conforms to the requirement of ISO 14001:2015 and we are committed to the improvement of this system to enhance environmental performance. We shall carry out spot checks both internally and externally to verify compliance to the standard is being maintained.

Airblast Limited is committed to the adoption of environmentally responsible policies and practices, together with the reviews of both its performance and areas for further improvements in reducing detrimental impact we have on the environment in turn reducing the pollution we release.

Our aims, through continuous staff awareness is to create and maintain a high level of environmental responsibility. We are committed to reducing the significant effects that we have on the environment and where possible helping improve it.

Airblast Limited maintains a fundamental belief in the importance of protecting the environment and will take all necessary steps within its power to eliminate, or control, environmental hazards. Our aim is to use the most environmentally friendly, supplies, energy, renewable or recycled materials wherever possible.

We shall aim to minimise waste produced in all parts of our business, including recycling materials and the methods for environmentally acceptable disposal of materials as necessary. We shall consistently comply with applicable environmental legislation and/or regulations and we are committed to fulfilling our environmental compliance obligations. Encouraging employee involvement in positive environmental action through training and regularly assessing the environmental impact of all our operations.

All Airblast staff and sub-contractors have a responsibility towards the environment, in which they live and work a responsible attitude and commitment to the Company's objectives are expected.

Airblast Limited consider the quality aspects of our operations to be of primary importance to the successful management of the company. We are committed to the continual improvement of our Quality Management System and in satisfying applicable requirements, including statutory and regulatory.

Quality Objectives will be set to support this policy, and the organisation's changing context which are reviewed regularly at a senior management level.

We are committed to enhancing customer satisfaction and our customer performance through the effective application of our Quality and Environment Management System, and with it a socially responsible attitude to the services, throughout relevant locations and business operations.

In order to achieve and support the above policy statement, the company shall introduce and maintain a quality management system compliant to the requirements of **BS: EN ISO 9001:2015 & BS:EN ISO 14001:2015** and be subject to regular audits by independent parties and subject to regular review at senior management level.

As Project Director, I take full responsibility to ensure that this policy is communicated, implemented throughout the organisation and available to any other interested parties.

Paul Horsfall

Project Director

Airblast Limited
